Principal's Message

It is an honour to welcome you to the Aldar family and the Mamoura community. At Mamoura British Academy, our vision is:

“We are a sustainable and innovative learning community, where we nurture all learners through our bespoke Mamoura British Academy DNA.”

In our commitment to this vision, we strive to educate the whole child and to provide every student the quality education and learning experiences that they deserve, whilst playing a full and active role in our local, national and international communities.

At Mamoura, we endeavour to provide the highest of standards in all we do and to give every student the environment to express creative talents and academic abilities in innovative and enterprising ways; with a focus on cross curricular learning and a highly specialised Middle School curriculum using our highly trained specialist teachers. However, we also understand that young people need much more than a suite of excellent qualifications and so along with academic success we also promote the development of lifelong skills in order to succeed through our Mamoura Learner, Teacher and Values DNA.

The globalised nature of our world means that young people must have a wide range of personal skills and qualities to achieve their dreams. At Mamoura we aim to encourage: International mindedness; strong interpersonal skills; confidence and cooperation; leadership and social responsibility; innovation and creativity. Underpinning these skills we provide a quality academic provision based on the rigorous UK National Curriculum and UAE Ministry of Education subjects.

Our world class facilities allow young people to work with the latest technology, learn in safe and exciting environments, explore their own ideas in our learning spaces, use a wide- range of resources and materials, and course, have fun doing so. I very much look forward to fostering positive relationships with you all and welcoming you to our school.

Curriculum Information

A PLACE WHERE WE EXPLORE (Nursery and FS2)

In the Early Years Foundation Stage (EYFS), we use the EYFS Framework which sets standards for the learning, development and care of all of our children. Our expertly skilled EYFS team delivers high-quality early education that supports an exciting, yet integrated, approach to early learning. With our meticulously planned and enriched environment, the EYFS team aim to ensure all children fulfil and exceed their potential.

The framework focuses on the three prime areas of learning (Personal, Social and Emotional Development, Communication and Language, and Physical Development) and details the four specific areas which support the prime areas. Within this phase the children develop their love of learning and independence through Continuous Provision as they become little explorers during Exploration Time.

A PLACE WHERE WE GROW (Year 1-2)

In the Lower Primary, we provide a successful, seamless transition from the EYFS curriculum into the English National Curriculum (ENC). We aim to provide a broad learning experience of English National Curriculum subjects alongside Ministry of Education ones. We encourage a rich variety of approaches to teaching and learning that cater for the different needs of individual children. The learning pathway is delivered through enquiry or 'Project-Based Learning', a method of teaching which inspires a love of learning and deepens a student's knowledge by challenging them to complete real-world tasks.

A PLACE WHERE WE FLOURISH (Year 3-4)

Students' educational journey continues as children flourish with the opportunities they are provided with in Upper Primary. The transition in this phase of the school encompasses the students' journey from Lower Primary, but also prepares them for their graduation into the exciting Middle School. We enable children to adapt to new settings, quickly grasping teaching and learning methods and new expectations.

This enhances the students' academic performance and most importantly ensures their well-being in school.

LEARNING FROM THE MIDDLE (Year 5-9)

In the Middle School years, Mamoura British Academy's rigorous curriculum focuses on supporting students to become independent learners and preparing them to succeed in Senior School and beyond.

Our Middle School learning program is an outstanding bespoke international curriculum which is designed to meet the developmental needs of young minds by offering a holistic program which encourages collaboration, creativity and developing innovative minds. We focus on Project Based Learning and developing links between subjects and years.

TRIUMPHING FROM THE TOP (Year 10-13)

The Senior School curriculum is a skills-focused programme that provides students with a broad and balanced knowledge of key subjects, as well as effective critical thinking and communication skills.

Our students follow the English National Curriculum, and start their two-year examination course, which revolves around preparing for the International General Certificate of Secondary Education (IGCSEs) in Year 10. The examination boards we use are Pearson Edexcel and Cambridge. These widely recognised entrance qualifications are valuable assets for students seeking admission to their preferred university, and are excellent preparation for the challenges of university life.

Students study the core IGCSE in English, Mathematics and Science. This course of study is complemented with a number of optional IGCSE. Students are given a choice based on their interests and future aspirations.

In Post 16, students will opt for two to three A Levels over the two years or alternatively, may opt to study a BTEC in Applied Science alongside one or two A Levels as well as the chance to study for the Extended Project Qualification (EPQ). The A Level ensures students develop a mastery of several complementary or contrasting subject areas, whilst allowing them also to pursue options in areas of strong personal interest.

All of our A Level and BTEC subjects are taught by specialist teachers who have a passion for their subject and who are there to support our students as they make their choices for university and beyond. The A Level and BTEC combination of rigour and specialism makes it an ideal preparation both for university and working life.

MINISTRY OF EDUCATION CURRICULUM

As a school which is situated in the UAE, we also run the Ministry of Education Curriculum alongside English National Curriculum subjects. Our Native students will study both subjects until the end of their education. Our Non-Native students will study Arabic until Year 9 and then can opt to study Arabic in Year 10 onwards.

Bring Your Own Device

In order to ensure that your child(ren) have all that they need to prepare for next academic year at Mamoura, we wanted to remind you of some information on our Bring Your Own Device (BYOD) strategy for the academic year 2025-2026.

As a school, we operate a BYOD Policy for children in Year 2 and above. As part of this, we have a requirement that specific devices are purchased by families, along with our digital safety package to protect children from online risks and support their education. Aldar have teamed up with our technology partner JTRS, an Apple Authorised Education Specialist, to establish the Aldar Education E-Store. This platform allows families to purchase recommended devices and accessories at the most competitive prices. You can access the Aldar Education E-Store by clicking on this link: <https://aldareducation.jtrs.ae>.

All devices brought into our school by students from August 2024 will need a digital safety package. To ensure the safety of all our stakeholders, no devices will be allowed into our schools without this package. This is an incredibly important aspect of keeping our children safe online, allowing high quality supervision and monitoring of devices at all times (whether used in school or at home). If your child already has an Apple device, please bring this device into school so that the digital safety package can be added. This can be done by our IT Team. The cost is approximately 285dhs and is valid for the lifetime of the device.

Our digital transformation strategy positions the Apple iPad as our digital pencil case and digital notebook. In the older year groups (Year 9 and above), children also have the option to use a MacBook. This technology will fit into our carefully crafted digital ecosystem across Aldar Education's schools, ensuring a safe, secure, and enhanced digital experience for all our students.

As Aldar parents, you can buy carefully crafted technology bundles on our e-store: <https://aldareducation.jtrs.ae>. Just follow the links for Mamoura British Academy. If your children already own existing Apple technologies, the following requirements and specifications will be in line with the new strategy:

iPad:

- Minimum iPad 8th Generation, iPad Air 4th Generation - 64GB
- Keyboard Case
- Stylus

MacBook - for older students to complement their iPad solution:

- Models that are 2020+ in age
